

OUR BACKGROUND WORK ON EU BREFS

EU BREF on Common Waste Gas Treatment in the Chemical Sector (WGC BREF)

- The development of the BREF started in 2016 and [the first draft \(D1\)](#) was published in November 2019. Following a stakeholders commenting period until end February 2020, the European Commission is currently working on a revised draft that would be again discussed and finally concluded upon at the Final meeting.
- Next steps:
 - the Final meeting will be held in 7 web-based sessions between 15 June and 02 July;
 - a revised draft of the BREF will be made available after the meeting

OUR BACKGROUND WORK ON EU BREFS

EU BREF on the ceramic manufacturing industry (CER BREF)

- The kick-off meeting for the review of this BREF was held in February 2021. The kick-off meeting report is [available here](#).
- Next steps:
 - Input sought on the draft questionnaire for the data collection from ceramic installations by end May;
 - Information sought on well-performing plants for the data collection through plant-specific questionnaires by end June;
 - Bulk information (on best available techniques etc.) sought by end September;
 - D1 expected at the 4th Q of 2022.
